Order	ID	Item	Type	Status	Estimate
<b>1</b>	The members should be able to access benefits from sponsors.				
	111	As an applicant, I want to create an account so that I can apply for DGA membership so I may receive benefits.	Functional	Done	3
	112	As a member of the DGA, I want to access my current benefits package so that I may know what I am entitled to as a member.	Functional	Done	3
113,	113	As a member of the DGA, I want to be able to request new benefits from my sponsor so I may reserve the right to request benefits.	Functional	Done	5
	114	As a member, I want to be able to transfer my benefits from one sponsor to another, so they remain when I am required to change companies.	Functional	Done	8
	115	As a member, I want to be able to delete my account from the database, so I may choose to join another organization.	Functional	Done	2
<b>2</b>	The sponsor should be able to recruit and manage members.				
	121	As a sponsor, I want to create an account so we may begin to manage the benefits of our members.	Functional	Done	3

	122	As a sponsor of the DGA, I want to view a list of my current members within my company so that I may view/manage these members.	Functional	Done	2
	123	As a sponsor, I want to be able to recruit members within the DGA who have not been assigned a sponsor so we can expand our company.	Functional	Done	5
	124	As a sponsor, I want the ability to remove members from our sponsorship in necessary instances so that we may have control.	Functional	Done	2
<b>3</b>	Users should be able to access profile information including their email, username, phone number, and other user specific data.				
	131	As a user of the software, I would like to be able to quickly pull up profile information the system has stored on me.	Accessibility	Done	5
	132	As a user I would like to be able to send my profile information to the production company.	Accessibility	Done	2
	133	As a user I would like to be able to request my information sent to other sponsors, and users.	Functional	Done	2

<b>4</b>	A user should have easy access to help within the system such as customer support, and support forums.				
	141	As a user of the system, I would like customer support so I may receive help with my account if necessary.	Accessibility	Done	3
	142	As a user I would like to be able to easily communicate with other users about issues that I'm having within the system.	Accessibility	Done	5
<b>5</b>	Sponsors should be able to manage the benefits of their members.				
	151	As a sponsor, I want to be able to add benefits to our list of members so they may receive their benefits.	Functional	Done	3
	152	As a sponsor, I want to be able to remove benefits from members in the necessary instances where those plans aren't feasible.	Functional	Done	3
	153	As a sponsor, I want to have the ability to respond to requests for new plans so my members can remain satisfied with their sponsorship.	Functional	Done	5
<b>6</b>	The system's web interface should be readable and accessible to all users.				
	161	As a user of the system, I want the website to have a readable UI, that way I can use the website more easily.	Accessibility	Done	5

	162	As a user I would want quick response times from the system per my request	Performance	Not Started	3
	163	As a sponsor, I want an intuitive management UI so that I can easily manage a large quantity of members.	Accessibility	Done	8

Use-Case Name:	Readable User interface	<b>Use Case Type</b>  <b>Business Requirements:</b> x  <b>System Analysis:</b> o  <b>System Design:</b> o	
Use-Case ID:	163		
Priority:	Medium		
Source:	Product Backlog		
primary business actor:	Sponsor		
Primary System Actor:	Sponsor		
Other Participating Actors:	Members		
Other Interested Stockholders:	N/A		
Description:	Sponsors should be able to manage, and add users with a easy to use user interface		
Precondition:	Sponsor management system is implemented to allow improvements to user interface		
Trigger:	The Sponsor logs in		
Typical Course of Events:	<b>Actor Action</b>		<b>System Response</b>
	1.    Sponsor clicks log in  2.    Sponsor enters credentials  3. Sponsor Is then able to clearly read, and manage current members of the sponsor's plan		3.    Sponsor is sent to login page  4.    Sponsor is sent to the Sponsor Main page
Alternate Courses:	7. The user interface errors, and is not readable  7a. The Sponsor is unable to understand the user interface properly		
Conclusion:	The Sponsor is able to manage users easily through a intuitive user interface		
Postcondition:	N/A		
Business Rules:	N/A		
Impl. Constraints and Specifications:	None		
Assumptions:	The Sponsor is able to login, and quickly get used to the interface		
Open Issues:	None
